Multan, Pakistan

About Me

Full-Stack Developer with a strong foundation in Physics, Computer Science, and Mathematics (BSc, 2022). Skilled in building modern, responsive web applications using Next.js, React, Tailwind CSS, JavaScript, and TypeScript. Experienced in integrating APIs, managing dynamic content with Sanity CMS, and developing scalable backend solutions using Neon PostgreSQL and Drizzle ORM. Passionate about writing clean, maintainable code and delivering intuitive, user-focused web experiences.

PROJECTS

Portfolio: Built with Next.js and Tailwind CSS, Sanity CMS featuring a clean, responsive UI.

Live Link: <https://portfolio-tawny-eight-31.vercel.app/>

Noire — E-commerce Website

Built with Next.js and Sanity.io as a headless CMS for dynamic product and content management.

Live Link: <https://noire-e-commerce.vercel.app/>
